

Program Overview for Employer Approval

Program Purpose

The PPE Radiology Workshop is an intensive training program designed for Nurse Practitioners, Physician Assistants, and Physicians practicing in Emergency Medicine, Urgent Care, Acute Care, or Critical Care. The course focuses on mastering the ordering and interpretation of radiological images in acute settings, ensuring providers can tackle any image they encounter.

Format & Investment Options

The workshop is available in two formats to accommodate different scheduling and travel needs. Both options award **up to 34 CME/CE Hours** (including 12 Emergency Procedure Hours), accredited by the AAPA and AAFP.

Format	Cost	Core Inclusions
Live In-Person (Dallas, TX or Washington, DC)	$1,095*	Small-group interactive didactic instruction (limited to 30 participants), 1-year access to online lectures, slides, and the PPE Clinical Toolkit.
Online Self-Study	$595	Complete interactive online curriculum and 1-year access to the PPE Clinical Toolkit.

**Early registration for the live event offers a $100 discount, reducing the cost to $995.*

Core Curriculum & Clinical Competencies

Participants will receive comprehensive instruction covering a wide array of radiological studies. The curriculum covers:

- **Chest and Abdomen:** Systemic reading processes, radiographic signs of major diseases and high-impact injuries, and identifying foreign body ingestions/aspirations.
- **Spinal Injuries:** NEXUS Criteria, unstable fractures, cauda equina syndrome, epidural abscesses, immobilization, and ordering the correct studies.
- **Extremity Injuries:** Common patterns of fractures and dislocation/reduction techniques for both upper and lower extremities. Includes instruction on splinting techniques, compartment syndrome, amputations, and when to consult Orthopedics or transfer/EMS.
- **CT Essentials (Abdomen & Pelvis):** Identification of bleeding, kidney stones, infarctions, hernias, bowel obstructions, and adrenal adenomas.
- **CT Essentials (Head & Brain):** Identification of bleeds, strokes, trauma, tumors, and hydrocephalus.

Value & ROI for the Practice

Approving this continuing medical education will directly benefit the clinical environment in several key areas:

1. **Expanded Scope of Care:** Providers will be equipped to confidently and accurately interpret radiographs and CT scans in-house, facilitating faster clinical decision-making and better treatment planning.
2. **Risk Mitigation:** The curriculum incorporates dedicated instruction on risk-protective charting, safer documentation practices, and identifying high-risk injuries/conditions to reduce clinical liability.
3. **Improved Billing & Operational Accuracy:** The program provides specific guidance on accurate coding and billing, as well as guidance on when it is appropriate to consult specialists versus sending the patient home, improving overall workflow efficiency.

About our Instructors

All of our physician instructors are residency-trained, board certified, and currently practicing in their specialty. Advanced Practice Providers must demonstrate maturity in their field and a strong ability to communicate to medium-sized audiences. All procedural competency is verified and demonstrated to lead faculty prior to live education. We require a minimum of 5 years of clinical experience and undergo an intensive training process to ensure all of our faculty members intimately understand and communicate the topics they teach. We invest much time onboarding our instructors to ensure they provide the best learning experience possible.

6:1 Ratio

To maximize procedural training and individual attention, we staff our programs with 1 instructor per every 6 participants. This makes group sizes intimate and allows for hands-on procedure guidance and group feedback without wasting time waiting for procedures. We do not exceed 30 students to ensure noise volume and attention is kept to a standard.

Program Locations and Travel

Our programs are held in hotel conference rooms in Orlando, Dallas, and Washington, DC. Flights into these locations are affordable, and our hotel rates are reasonable for the area. Participants are not required to stay at the hotel where the event is held, but are encouraged to do so for convenience.

Group/Custom Programs

In addition to our physical locations, we can create and customize a program for your organization. We can can come to you, or you can come to us. We are also able to reserve an entire event weekend for your group. For more information please call (239) 404-2073.

Accreditation for Physicians, Nurse Practitioners and Physician Assistants

This activity has been reviewed by the American Academy of Physician Associates Review Panel and is compliant with AAPA CME Criteria. PAs should only claim credit commensurate with the extent of their participation. 12 Category 1 CME Credits approved.

The AAFP has reviewed the Physician Skills and Procedures Series, and deemed it acceptable for AAFP credit. Physicians should claim only the credit commensurate with the extent of their participation in the activity. 12 AAFP (AMA Category 1 Equivalent) CME credits approved.

The Clinical Toolkit

Provider Practice Essentials is a membership-based organization. When you take our programs, you also become a member! All program participants receive complimentary 1-full year of access to the Clinical Toolkit - A collection of system-based resources, videos, articles, and additional CME. This is included in your program registration and highly rated by our members. This is a subscription-based membership and will renew annually for only $49.99. **You may opt out of renewals at any time.**

Reviews

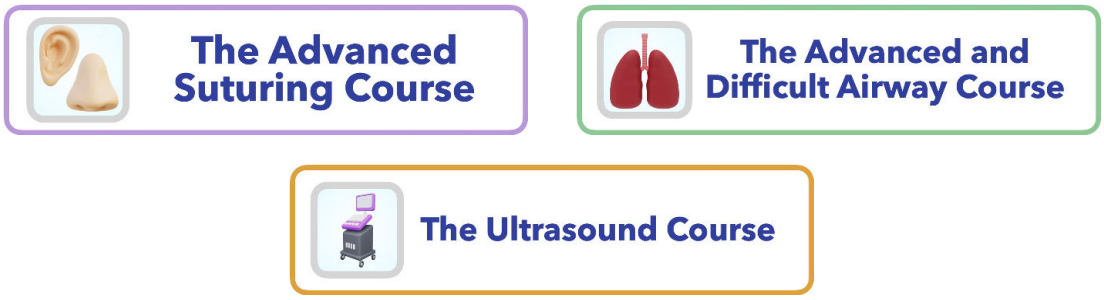
You can find testimonials of our programs HERE:

We have 5.0 stars on Google and 5.0 stars on Facebook. Our internal ratings overall for this program are 4.86 based on feedback from all program participants. Of the

thousands of people who have taken our program, we are proud we are delivering what we promise.

Other Programs

In addition to this workshop, we also offer the following other live programs:



These programs can be combined with the Skills and Procedure Workshop to create a 3-day conference experience.

Online Programs

All of our live programs are available as online enduring programs as well, and award the same CME credits. These can be added to any live program for a bundled discount.

Program Price

The Radiology Workshop is regularly priced at $1095 and includes the Toolkit membership, online access to all program content with note taking, lunch, and coffee/water throughout the program. Booking early helps us allocate staff and ensure our teaching ratio. Advanced registration more than 30 days before the program have a **discounted registration fee.**
